Major Businesses

CITIC Pacific has unrivalled experience and expertise in operating businesses in China both on the mainland and in Hong Kong. With the rapid development of the Chinese economy, CITIC Pacific is increasingly focusing its business activities on the mainland of China. Our major businesses are special steel manufacturing and iron ore mining which supplies the raw material needed in the making of special steel, and property development in mainland China.

Special Steel and Iron Ore Mining

Special Steel CITIC Pacific Special Steel, which operates through three steel groups in mainland China with total production capacity of over seven million tonnes annually, is a leader in the manufacturing of special steel used in bearings and gears among others. Its customer coverage reaches Eastern, Central and Northern China.

Jiangyin Xingcheng Special Steel is a leader in China specializing in the making of high-grade special steel used in bearings, gears, springs and high-pressurized piping steel. Its new line, in cooperation with Sumitomo Metals of Japan, has the most advanced technology in the industry.

Xin Yegang is located in Central China, it has a long history dating back to 1908. Its seamless steel tubes, one of its major products, continues to receive strong demand and remains very profitable.

Shijiazhuang Steel Mill became a member of CP Special Steel in 2006. Built in 1957, it is now a manufacturer of special steel with 2.2 million tonnes in production capacity. Its products are mainly supplied to the auto component industry.

Iron Ore Mining CITIC Pacific owns the mining rights to one billion tonnes of magnetite iron ore with options to another five billion tonnes in the Pilbara region of Western Australia. The one billion tonnes of ore is capable of producing 12 million tonnes of product annually to supply mainland China and CITIC Pacific's steel groups in particular.

Property

CITIC Pacific's property team has extensive experience in building and managing medium and large scale residential and commercial projects including Shanghai's CITIC Square and The New Westgate Garden, and Hong Kong's CITIC Tower.

In the past few years, the Group has been active in investing in properties in mainland China. Currently CITIC Pacific has a large quality land bank in Shanghai, major secondary cities in the Yangtze Delta area and Hainan Island.

Chairman's Letter to Shareholders

CITIC Pacific achieved a net profit of HK\$4,968 million in the first six months of 2007, a 44% increase compared with the same period last year. The Group's various businesses performed well. Our special steel manufacturing business in particular had an excellent six months, with profit contribution more than doubling. A HK\$1.9 billion profit was recorded following the successful listing of CITIC 1616 in April of this year. In light of the satisfactory performance and the Group's financial position, the board has recommended paying a special dividend of HK\$0.20 per share in addition to an interim dividend of HK\$0.40 per share.

During the first half of the year, CITIC Pacific continued to implement its strategy of focusing on the development of its core businesses, and at the same time, made progress in divesting non-core businesses. Following the listing of CITIC 1616, we recently submitted to the Hong Kong Stock Exchange an application for a separate listing of Dah Chong Hong, our marketing and distribution business. Preparation work regarding this listing is progressing as planned. We have also taken appropriate actions regarding other non-core assets, therefore enabling management to focus more on the investment and management of core businesses.

Special Steel Manufacturing

After years of hard work, CITIC Pacific Special Steel is now the largest special steel manufacturer in China with over seven million tonnes of annual production capacity. Total special steel produced by our steel plants in the first half of 2007 increased 70% compared with the same period last year. Driven by the development of industries such as auto, petrochemical and industrial manufacturing, among others, the overall market remained strong, and demand for special steel products is expected to continue to be robust in the foreseeable future. Since the acquisitions of Daye and Shijiazhuang Steel, CITIC Pacific Special Steel's production and nation-wide sales networks have become more rationalized. Through centralized management,

synergies have been created in the areas of raw material purchasing, and product sales, exports and transportation. At the same time, the Group's three manufacturing bases can also enjoy the benefit of shared technology and management know-how, resulting in better product re-alignment and higher product quality, which will further strengthen the competitiveness of our products and the overall profitability of CITIC Pacific Special Steel.

Jiangyin Xingcheng Special Steel's new production line has been fully completed and is now operational. This production line, employing advanced technologies, will manufacture high quality special steel that is used mainly in the auto industry. This will further solidify our leading position in the special steel market in China.

As the Chinese economy continues to grow, the demand for high quality special steel will continue. We are confident in the future of CITIC Pacific Special Steel.

Iron Ore Mining

In 2006, CITIC Pacific acquired mining rights to one billion tonnes (stage one) of magnetite ore with options to another five billion tonnes in the Pilbara region of Western Australia. Confirmation of stage two ore reserves is progressing well. Work on the mine has commenced with the aim of initial production in 2009. Once completed, this mine will supply much needed raw material to our own steel mills; it will also become a long-term stable strategic resource to other steel plants in China.

Subject to approval by the relevant government authorities, an agreement has been reached with the China Metallurgical Group ('MCC') for it to become a 20% partner in this project. MCC is already one of the main contractors of this mining project.

Property

Property development in mainland China is one of our core businesses. In the past two years, CITIC Pacific has

rapidly increased its land bank that can be developed over the coming years. Mainly located in economically developed areas centered around Shanghai as well as Hainan Island, China's largest tourism and leisure destination, the value of these development projects all have potential to appreciate. We will continue to actively increase land reserves, which will help lay a solid foundation for the long-term development of our property business. We believe the completion of these projects will bring significant profit contribution to the Group.

Since the second quarter of 2007, the property market in mainland China has been active with strong demand. Sales at our New Westgate Garden residential project in Shanghai are satisfactory. Most of the commercial space has also been leased.

In the first half of the year, we increased our shareholding in the Shanghai Lu Jia Zui Financial District Project to 50%. Construction of the first phase will commence soon. Once completed, this project will become another landmark on the bank of Shanghai's Huangpu River.

During this period, progress has been made on the construction of projects in Ningbo, Wuxi, Yangzhou and Qingpu. We expect to market these projects in phases starting in the fourth quarter of 2007. Our large development in Hainan Island is progressing well. Major infrastructure work, such as roads and bridges, has already begun. Construction on hotels and other related facilities will also commence soon.

The Group's investment properties in Hong Kong and Shanghai continue to have high occupancy rates with increased average rentals, providing us with stable cash flow.

Aviation

Benefiting from robust economies in mainland China, Hong Kong and globally, the aviation market remains

buoyant. Cathay Pacific enjoyed an excellent first half with a historically high passenger load factor. The restructured Dragonair is being systematically integrated into the operations of Cathay Pacific in order to fully reflect synergies. The two airlines will continue to expand their fleet, and additional flights to New York City, San Francisco and Melbourne are being planned.

Power Generation

The Group's power plants performed well in the first six months of 2007. Ligang Phase III entered commercial operation at the end of last year and is now profitable. Work on Ligang Phase IV is progressing well. The first unit (600MW) completed on-grid testing in July this year and the second unit (600MW) is expected to be completed by year-end. We have also begun an initial feasibility study on Ligang Phase V.

Looking to the Future

Step-by-step we have implemented a series of strategic plans with the aim of focusing on core businesses, and we believe this has been widely recognized and supported by the market. We expect recurring earnings from core businesses to increase substantially in the future. We will continue to implement our strategy in order to demonstrate the value of our company, and achieve higher returns for our shareholders.

The rapid and healthy development of the Chinese economy has brought us tremendous business opportunities and we are confident in the future of CITIC Pacific.

On behalf of our directors, I would like to express my heartfelt thanks to our employees for their hard work and to our shareholders for their support. Without them, we would not have achieved our excellent results.

Larry Yung Chi Kin

Chairman

Hong Kong, 22 August 2007

Introduction

CITIC Pacific's 2007 Interim Report includes a letter from the Chairman to shareholders, the interim accounts and other information required by accounting standards, legislation, and the Hong Kong Stock Exchange. This Financial Review is designed to assist the reader in understanding the statutory information by discussing the contribution of each business segment, and the financial position of the company as a whole.

Pages 20 to 24 of the Interim Report contain the Consolidated Profit and Loss Account, Balance Sheet, Cash Flow Statement and Statement of Changes in Equity. Following these financial statements, on pages 25 to 29 of the Interim Report, are Notes that further explain certain figures presented in the statements.

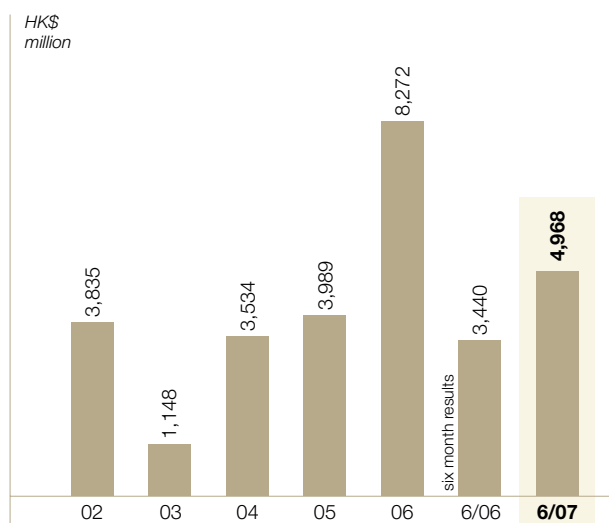

On page 30 is the report of CITIC Pacific's auditor – PricewaterhouseCoopers – of their independent review of CITIC Pacific's interim accounts.

Basis of Accounting

CITIC Pacific prepares its financial statements in accordance with generally accepted accounting standards issued by the Hong Kong Institute of Certified Public Accountants ('HKICPA') which have been converged with International Financial Reporting Standards.

Profit Attributable to Shareholders

The net profit attributable to shareholders for the six months ended 30 June 2007 was HK\$4,968 million, an increase of 44% compared with HK\$3,440 million for the same period in 2006. The reasons for the increase in profit are described below.

Business Segments Contribution

The Contribution (Note) made by major business segments in the first six months of 2007, compared with the same period of 2006, were:

HK\$ million	actual		change 2007-2006
	1-6/2007	1-6/2006	
Special Steel	1,123	539	584
Property	446	1,803	(1,357)

Fair Value change of Investment Properties	416	647	(231)

Note: Please refer to Definition of Terms on page 40.

Compared with the contribution for the six months ended 30 June 2006:

- **Special Steel:** Contribution doubled due to continuing good performance of Jiangyin Steel Plant, Xin Yegang Steel and Daye Special Steel. As the overall market remained strong, both sales volume and selling prices increased. Shijiazhuang Steel Plant which was acquired in the second half of 2006 also made contribution in the first half of 2007.
- **Property:** Contribution decreased by 75%. In the first half of 2006, the profit included the sale of 50% interest in Festival Walk, profit recognized on presold units upon completion of Shanghai New Westgate Garden and Chianti at Discovery Bay. Excluding the rental income from the disposed Festival Walk last year, rental income recorded good growth during the period.
- **Aviation:** Cathay Pacific reported an excellent result for the period with 55% increase in net profit. Despite the decrease in Group's shareholding of Cathay Pacific from 25.4% to 17.5%, contribution from Cathay for the period increased by 9% compared to the combined contribution from Cathay and Dragonair the same period last year.
- **Power Generation:** Excluding the impairment loss on Jilin Power Station and a loss arising from the share reform of an A share subsidiary company of North United Power Group in 2006, contribution increased by 51% mainly due to the increased contribution from Ligang Power Stations. Ligang Phase III which was commissioned in the second half of 2006 operated smoothly and has already started to make profit contribution.
- **Civil Infrastructure:** The contribution was mainly related to the two tunnels which remained relatively stable.
- **Marketing & Distribution:** The motor business, especially the PRC market, remained the major contributor to the growth. The general trading business also performed well.
- **Communications:** A profit of HK\$1.9 billion was realized in connection with the spin off of CITIC Telecom 1616 in 2007. Contributions from Telecom 1616 and CTM were both increased. The Group disposed certain non-profitable operations during the period.
- **Fair Value change of Investment Properties:** The increase in fair value of investment properties as a result of a revaluation reflected the strong current property market conditions in both Hong Kong and the PRC.

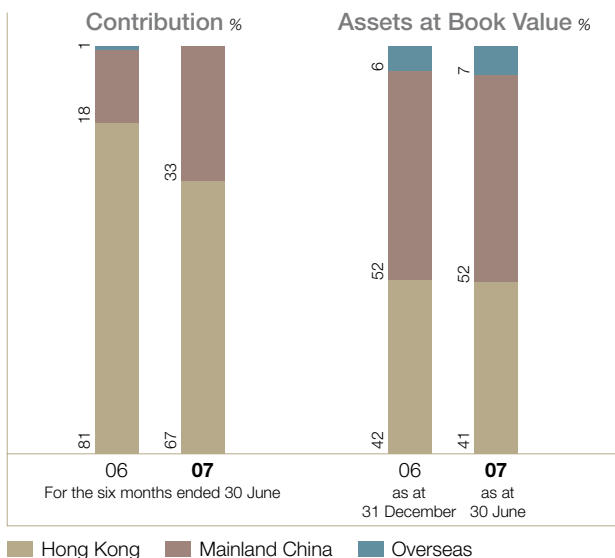

Contribution

Pages 25 and 26 of the Interim Report contains business segment information for turnover and profit before net finance charges and taxation for consolidated activities, jointly controlled entities and associated companies.

Geographical Distribution

The division of contribution and assets between Hong Kong, mainland China and overseas is shown below based on the location of the base of each business's operations.

Interest Expense

The Group's interest expense net of amount capitalised decreased from HK\$347 million to HK\$159 million. Capitalised interest increased from HK\$113 million to HK\$262 million mainly due to various PRC property projects under development and the iron ore project. The weighted average cost of debt in 2007 was 5.4% compared to 5.0% last year.

Taxation

As a result of the revision in China's Corporate Income Tax Law, the corporate income tax rate for PRC property companies will be reduced from 33% to 25% from the year 2008 onwards. As a result, the deferred taxation liabilities brought forward from the year 2006 has been adjusted downwards by HK\$177 million for the current period.

Current tax increased from HK\$261 million to HK\$311 million due to increased profit from operations.

Shareholders' Returns

CITIC Pacific's primary objective is to increase shareholder value for which it has used earnings per share as a proxy. The Company expects its businesses to provide returns on investment over their lives that will provide shareholders with an adequate return on equity.

Earnings per Share

Earnings per Share was HK\$2.25 for the first half of 2007, an increase of 44% compared with HK\$1.57 for the same period in 2006. The increases in Earnings per Share was mainly attributable to the increase in profit as the number of shares outstanding in the two periods was substantially the same.

Shareholders' Funds per Share

Shareholders' Funds per share at 30 June 2007 was HK\$23.2. The increase was due to profit during the period less dividend paid.

Dividend per Share

An interim dividend of HK\$0.4 per share and a special dividend of HK\$0.2 per share are proposed for the first half of 2007.

Turnover

Special Steel turnover increased by 14%. The sales of all steel plants recorded a good growth.

Marketing & Distribution turnover increased by 17% mainly due to increased sales in mainland China particularly for the motor business.

The proceeds on disposal of approximately 50% interest in Telecom 1616 in connection with the spin off amounted to approximately HK\$2 billion.

Capital Expenditure

The property development projects in the Mainland, including Shanghai Lu Jia Zui New Financial District project, Qingpu, Ningbo, Yangzhou, and Hainan Island are continuing. A new investment in Sichuanbeilu Station Project was also made during the first half of 2007.

Others of 2007 includes investment in the listed shares of Country Garden and China Molybdenum. The Group also invested in the listed shares of Industrial and Commercial Bank and China Coal Energy in 2006.

As at 30 June 2007, the Group's contracted capital commitment was approximately HK\$12 billion, related mainly to PRC Property, Special Steel and Iron Ore mining.

Treasury Policy and Risk Management

General Policies

- Maintain a high degree of financial control and transparency;
- Centralised financing and cash management activities at head office level;
- Enhance risk management, control and the best utilisation of financial resources of the Group;
- Diversify funding sources through utilisation of both banking and capital markets;
- Arrange financing to match business characteristics and cash flow to the extent it is possible; and
- Employ limited or non-recourse project finance when it is available and appropriate.

Risk Management

The Group employs a combination of financial instruments, including derivative products, to manage its exposure to fluctuations in interest and currency rates. Derivative transactions are only used for interest rate and currency hedging purposes, speculative trading is prohibited. Counterparties' credit risks are carefully reviewed and in general, the Group only deals with financial institutions with investment grade credit rating. The amount of counterparties' lending exposure to the Group is also an important consideration as a means to control credit risk.

Foreign Currency Exposure

CITIC Pacific conducts business mainly in Hong Kong and mainland China, therefore it is subject to the market risk of foreign exchange rates in HK Dollar, US Dollar and Renminbi. To minimise currency exposure, non Hong Kong dollar assets are usually financed in the same currency as the asset or cash flow from it, either by borrowing or using foreign exchange contracts. Achieving this objective is not always possible due to limitations in financial markets and regulatory constraints, particularly on investment into mainland China as the Renminbi is currently not a free convertible currency and thus the RMB exchange swap market is not readily available or efficient at this time. In addition, 'Registered Capital', which usually accounts for no less than 25% of the total investment amount for projects in mainland China, is required to be paid in US dollars. As the Group's investment in mainland China is expanding, CITIC Pacific has an increasing exposure to the Renminbi. As at 30 June 2007, the Group had net RMB exposure of approximately HK\$33 billion (31 December 2006: HK\$30 billion).

The underlying cash flow of the Group's businesses is mainly in HK dollars or in Renminbi. CITIC Pacific employed foreign exchange forward contracts and other instruments to minimise potential exposure to debt principal and interest payments denominated in other currencies. As at 30 June 2007, such contracts outstanding amounted to HK\$7,624 million (31 December 2006: HK\$6,116 million). In addition, foreign exchange forward contracts were employed by our subsidiaries to hedge currency fluctuations. As at 30 June 2007, such contracts outstanding amounted to HK\$1,135 million (31 December 2006: HK\$707 million).

Interest Rate Exposure

The Group aims to maintain a suitable mixture of fixed and floating rate borrowings in order to stabilise interest costs despite rate movements. Interest rate hedging ratio is determined after taking into consideration of the general market trend, the Group's cash flow pattern, interest coverage ratio and etc.

The Group uses interest rate swaps, forward rate agreements, interest rate option contracts and other instruments to hedge exposures or to modify the interest rate characteristics of its borrowings. As at 30 June 2007, CITIC Pacific had outstanding interest rate swap / option contracts with a notional amount of HK\$11.4 billion. After the swaps, HK\$7.0 billion or 32% of the Group's total borrowings were effectively paying fixed rate and the remaining were effectively paying floating rate of interest.

The Group's overall weighted average all-in cost of borrowings (including fees and hedging costs) for the six months ended 30 June 2007 was about 5.4%, compared with 5.0% for the same period last year.

Cash Flow

By design, majority of the Group's debt is raised at the holding company level (except for project based financing or arrangement limited by regulation such as RMB borrowings). As such, the actual net amount of cash flow from each business to the Group is an

important indicator as to the Group's ability to service its debts. Following is a summary of cash contributions by each business segment:

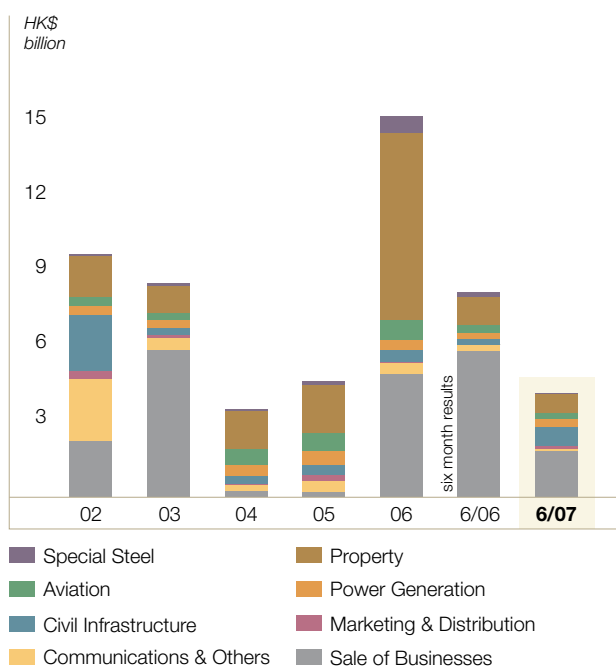

<i>HK\$ million</i>	for the six months ended 30 June	
	2007	2006
Special Steel	19	168
Property	774	7,317
Aviation	268	324
Power Generation	301	270
Civil Infrastructure	801	236
Marketing & Distribution	163	0
Communications	1,968	172
Others	22	60
Total	4,316	8,547

For the six months ended 30 June 2007, the Group's cash flow remained strong. Special Steel sector performed well, cash flow contribution to the Group was lower as the steel mills retained most of cash generated from operations for business expansions. Property sector continued to generate strong cash flow from both recurring rental income and property sale. The comparative figure in 2006 was higher because of the disposal of Festival Walk and the land in Tung Chau Street during the first half of 2006. Aviation and Power Generation sectors contributed stable cash flow to the Group. Civil Infrastructure sector's contribution was higher mainly due to Western Harbour Crossing's repayment of HK\$560 million shareholders' loan to the Group as a result of a successful restructure of the project loan during the period. Marketing & Distribution sector contributed higher cash balance to the Group as its operations performed well. During the period, substantial cash contribution was realised from the separate listing of CITIC Telecom 1616.

Leverage

Net debt divided by total capital was 26% at 30 June 2007 compared with 24% at the end of 2006.

Total Debt

Total debt increased mainly due to capital expenditure and new investments in the Group's core businesses of about HK\$3.2 billion in the first half of 2007.

For the six months ended 30 June 2007, the Group's average borrowing costs was about 5.4% compared with 5.0% for the same period last year. For the description on the Group's average borrowing costs, please refer to 'Interest Rate Exposure'.

Interest Rate Base

As described under 'Interest Rate Exposure', the Group maintains a suitable mixture of fixed and floating rate base in order to stabilise interest costs. As at 30 June 2007, 32% of the Group's total debt was effectively paying fixed rate of interest (39% on a net debt basis).

Maturity Profile of Outstanding Debt

The Group actively manages and extends its debt maturity profile to ensure that the Group's maturing debt each year will not exceed the anticipated cash flow and the Group's ability to refinance the debt in that year. As at 30 June 2007, outstanding loans that will mature to the end of 2007 amounted to HK\$1.2 billion or 6% of the total debt. On the other hand, the Group had cash and deposits with banks of HK\$4.1 billion on that date.

Debt / Cash in Jointly Controlled Entities and Associated Companies

For accounting purposes, some of the Group's businesses are classified as jointly controlled entities and associated companies. The following table shows the debt / cash position of jointly controlled entities and associated companies by business sector as at 30 June 2007 which, under Hong Kong generally accepted accounting standards, are not consolidated into the Group's accounts.

The debt amounts shown in the following table were arranged by jointly controlled entities and associated companies without recourse to their shareholders. None of these debts is guaranteed by CITIC Pacific or its subsidiaries. Certain Group's investments, such as Discovery Bay, are 100% financed by their shareholders and do not have any external borrowings.

Trade Facilities	3,066	805	2,261

* This is a USD short term bridging loan to support the funding requirement of the Iron Ore Mining project.

Undrawn Available Committed Facilities by Maturity (Total HK\$19.1 billion)

Undrawn Available Facilities by Type (Total HK\$23.7 billion)

In addition to the above summarised facilities, the Company established Cooperative Agreements with several major PRC banks. Under such agreements, general credit limits were granted to us to support the Group's funding requirements. Utilisation of these facilities will be subject to the banks' approval on a project-by-project basis in accordance with PRC banking regulations. As at 30 June 2007, total credit limit of around RMB72 billion under such arrangements remained available, of which RMB37.9 billion have been specifically allocated to Iron Ore Mining, Special Steel, Property and Power Generation projects. These arrangements will further support the Group's expansion strategy in the mainland.

Financing Activities

During the period, CITIC Pacific successfully completed a HK\$2.1 billion, 7-year club loan facility. In addition, newly established, renewed or extended bilateral loan facilities amounted to HK\$450 million. To support the funding requirement of the Iron Ore Mining project, a US\$540 million one-year bridging loan facility was established, and US\$166 million was utilised as at 30

June 2007. Documentation for the project loan is being finalised.

Pledged Assets

As at 30 June 2007, subsidiaries' assets of HK\$718 million (31 December 2006: HK\$696 million) were pledged to secure banking facilities, these arrangements mainly related to Daye Special Steel Co., Ltd. and Dah Chong Hong's business overseas.

Contingent Liabilities

As at 30 June 2007, the Group's contingent liabilities had not changed significantly from the last year end.

Loan Covenants

Over the years, CITIC Pacific has developed a set of standard loan covenants to facilitate the management of its loan portfolio and debt compliance. The financial covenants are generally limited to three major categories, namely, a minimum net worth undertaking, a maximum ratio of total borrowings to net worth and a limit on the amount of pledged assets as a percentage of the Group's total assets. CITIC Pacific has been in compliance with all of its loan covenants.

	covenant limits	for the six months ended 30 June 2007
Minimum Consolidated Net Worth:		
Consolidated Net Worth	≥ HK\$25 billion	HK\$53 billion
Gearing:		
Consolidated Borrowing / Consolidated Net Worth	≤ 1.5	0.42
Negative Pledge:		
Pledged Assets / Consolidated Total Assets	≤ 30%	1%

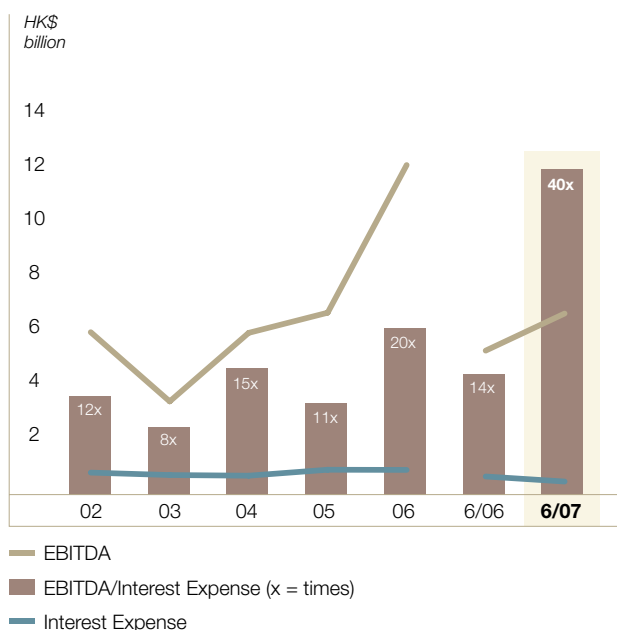

For the purpose of the above covenant limits, as defined in the relevant borrowing agreements:

'Consolidated Net Worth' means the aggregate of shareholders' funds and goodwill from acquisitions and developments having been written off against reserves or profit and loss account.

'Consolidated Borrowing' means the aggregate of all consolidated indebtedness for borrowed money and all contingent obligations in respect of indebtedness for borrowed money other than aforesaid consolidated indebtedness for borrowed money.

Interest Cover

EBITDA divided by interest expense for the six months ended 30 June 2007 was 40 compared to 14 for the same period last year, due to the 27% increase in EBITDA and a 54% decrease of interest expenses.

Credit Ratings

The current long term credit ratings of the Company are Ba1 by Moody’s Investor Service and BB+ by Standard & Poor’s. For both ratings, the credit outlook is stable. The Group’s new investments focus mainly in the areas where CITIC Pacific has greatest expertise, of which the Special Steel plants have already commenced contributing in both profit and cash flow to the Group, while the others are expected to make contribution soon. As a result, the credit profile of the Group is going to improve steadily in due course. The Group’s objective is to maintain its financial discipline when expanding its businesses.

Forward Looking Statements

This Interim Report contains certain forward looking statements with respect to the financial condition, results of operations and business of the Group. These forward looking statements represent the Company’s expectations or beliefs concerning future events and involve know and unknown risks and uncertainty that could cause actual results, performance or events to differ materially from those expressed or implied in such statements.

Forward looking statements involve inherent risks and uncertainties. Readers should be cautioned that a number of factors could cause actual results to differ, in some instances materially, from those anticipated or implied in any forward looking statement.

Human Resources

As at the end of June 2007, the total number of Employees at CITIC Pacific reached a new high of 23,989 as the Group continued to step up its development and investment in mainland China and Australia. Mainland China and Hong Kong have the largest number of employees at 19,720 and 3,932 respectively. The other 337 are employed in subsidiaries in Japan, Singapore, Canada and Australia.

Sustained economic expansion has kept the employment market active and led to an increase in the demand for talent. To ensure that overall compensation is internally equitable, externally competitive, and in support of the business strategy, the Group proactively conducts reviews of cash compensation and benefit programs that are provided to its employees. As the Group remains largely compatible with the other similar large companies in the market, no major changes to the human resources management policy have been made in the last 6 months. In line with the established policy, some interim salary adjustments were awarded on a selective basis to recognize performance and match market changes.

CITIC Pacific actively promotes a culture of open communication in which staff can report concerns and share ideas with management. The Group is also committed to providing a healthy organizational environment that is conducive to each individual's development. Employees are encouraged to improve themselves through further studies and are supported with financial sponsorship from the Group. In-house training for different levels of employees is organized on a regular basis to provide product knowledge and skill improvement. Moreover, with the growing cross-territory business activities across Hong Kong, mainland China and Australia, the Group continues to strengthen business integration, knowledge sharing and skill transfer among staff at these locations.

CITIC Pacific fully supports investing in the training and development of our younger generation. The Group has implemented various management trainee and apprentice training programs. It also sponsors a scholarship prize for the Hong Kong Air Cadet Corps in their preparatory pilot training program and supports local universities by providing summer internship opportunities in the Group's mainland China operations.

CITIC Pacific and its employees continue to support charitable work and the promotion of education, environmental protection, sports, culture and the arts by sponsorship and participation in related activities.

Notes to the Accounts

1 Significant Accounting Policies

These condensed unaudited consolidated interim accounts ('the Accounts') are prepared in accordance with Hong Kong Accounting Standard ('HKAS') 34 'Interim Financial Reporting' issued by the Hong Kong Institute of Certified Public Accountants and Appendix 16 to the Listing Rules of The Stock Exchange of Hong Kong Limited.

The accounting policies used in preparation of the Accounts are consistent with those adopted in the annual accounts for the year ended 31 December 2006 and with the adoption of certain new or revised Hong Kong Financial Reporting Standards ('HKFRS') and HKAS in 2007, among which the following will have disclosure impacts on the 2007 annual accounts:

- HKFRS 7 'Financial Instrument: Disclosures'; and
- Amendment to HKAS 1 'Presentation of Financial Statements' – Capital Disclosures

The adoption of these accounting standards has no material effect on the Group's results of operations.

Report on Review of Interim Financial Report

Report on Review of Interim Financial Report to the Board of Directors of CITIC Pacific Limited (incorporated in Hong Kong with limited liability)

Introduction

We have reviewed the interim financial report set out on pages 20 to 29, which comprises the consolidated balance sheet of CITIC Pacific Limited (the 'Company') and its subsidiaries (together, the 'Group') as at 30 June 2007 and the related consolidated profit and loss account, statements of changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on the Main Board of The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial report to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 'Interim Financial Reporting' issued by the Hong Kong Institute of Certified Public Accountants ('HKAS 34'). The directors of the Company are responsible for the preparation and presentation of this interim financial report in accordance with HKAS 34. Our responsibility is to express a conclusion on this interim financial report based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of interim financial report consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 'Interim Financial Reporting'.

Certified Public Accountants

Hong Kong, 22 August 2007

Dividend and Closure of Register

The Directors have declared an interim dividend of HK\$0.40 (2006: HK\$0.30) per share and a special dividend of HK\$0.20 (2006: HK\$0.30) per share for the year ending 31 December 2007 payable on Tuesday, 18 September 2007 to shareholders whose names appear on the Register of Members of the Company on Thursday, 13 September 2007. The Register of Members of the Company will be closed from Friday, 7 September 2007 to Thursday, 13 September 2007, both days inclusive, during which period no share transfer will be effected. In order to qualify for the interim dividend and the special dividend, all transfers, accompanied by the relevant share certificates, must be lodged with the Company's Share Registrars, Tricor Tengis Limited, at 26th Floor, Tesbury Centre, 28 Queen's Road East, Wanchai, Hong Kong for registration not later than 4:30 p.m. on Thursday, 6 September 2007.

Share Option Plan

Under the CITIC Pacific Share Incentive Plan 2000 ('the Plan') adopted on 31 May 2000, the Board may invite any director, executive or employee of the Company or any of its subsidiaries to subscribe for options over the Company's shares on payment of HK\$1 per acceptance. The subscription price determined by the Board will be at least the higher of (i) the closing price of the Company's share as stated in the Hong Kong Stock Exchange's daily quotations sheet on the date of grant; (ii) the average closing price of the Company's share as stated in the Hong Kong Stock Exchange's daily quotations sheets for the five business days immediately preceding the date of grant and (iii) the nominal value of the Company's shares. The maximum number of shares over which options may be granted under the Plan shall not exceed 10% of (i) the issued share capital of the Company from time to time or (ii) the issued share capital of the Company as at the date of adopting the Plan, whichever is the lower.

Since the adoption of the Plan, the Company have granted three lots of share options:

date of grant	number of share options	exercise price HK\$
28 May 2002	11,550,000	18.20
1 November 2004	12,780,000	19.90
20 June 2006	15,930,000	22.10

All options granted and accepted can be exercised in whole or in part within 5 years from the date of grant. None of the share options granted under the Plan were cancelled or lapsed during the six months ended 30 June 2007. No further options were granted during the six months ended 30 June 2007. A summary of the movements during the six months ended 30 June 2007 of the share options is as follows:
